Dive
with us.

Established in 1959, the Old Colony Amphibians formed a dive club with the purpose of furthering the sport of Skin and Scuba Diving for the enjoyment of its members while at the same time promoting safety and sportsmanship.

As with all sports and hobbies, your enjoyment is directly related to the amount of exposure you have to them. If you have friends that dive, you tend to dive and grow with them.

The Old Colony Amphibians offers not only this exposure, but also that “get up and go” which motivates all of our members’ interest in diving – the variety of dives, the fun, the functions, and yes, the sportsmanship. This is what our club is about and reason to join.

Our membership incorporates all levels of divers – from the novice to advanced, snorkelers to “hard-core” divers. We meet in the Greater Providence area; check our web site for specific meeting locations. During the warmer diving months, April 1 - October 31, we meet every Thursday. Winter

meetings are held the first and third Thursday of the month starting at 7:00 pm. (November 1 - March 31).

The club plans and schedules a full compliment of dives throughout the warmer months. Some members even dive through the winter in our Winter Dive Club.

The club also maintains, for the use of its members, these items:

- *On The Line* Newsletter
- Wreck Facts
- Video & Book Library

Come to a meeting, meet the members, ask who’s going diving and get involved.
